Dynamic Synergies Group Secures 5-Year Managed Services Contract

Newtown PA, June 30, 2009: Dynamic Synergies Group, Inc. (“DynSyn”), a premier Business, Management, and Technology Consulting and Outsourcing firm has announced that a definitive Agreement has been executed with the Board of Trustees of Camden County College, based in Blackwood, New Jersey. The Agreement approved by the College’s Board on May 21, 2009, calls for DynSyn to provide Management and Staffing of the College’s Office of Information Technology beginning July 1, 2009, through June 30, 2014.

Don George, President of DynSyn announced the agreement today commenting, “We’re thrilled to be joining forces with Camden County College. Higher Education is being financially challenged in ways never before seen and DynSyn offers alternatives that are not only less expensive, but also provide increased value.” DynSyn is staffing management and technology positions at the College’s Blackwood, New Jersey, facilities that provide support for Administrative Systems, including Student Registration, Records, Finance, Financial Aid, Human Resources and Web-based facilities. In addition, DynSyn will provide Help Desk and certain Technical Support and Systems and Network Administration Services.

“We were seeking a partner who was flexible and committed to our long-term success,” explained Dr. Raymond Yannuzzi, President of the College. “We are convinced that the DynSyn team understands our needs and will provide the leadership required to make our strategic objectives a reality over the next five years.”

The contract was awarded after completion of a competitive bidding process and extensive evaluation of the proposals by the College. DynSyn began its Transition Program on May 21st to help ensure seamless transfer of activity from the incumbent vendor, SunGard Higher Education, who has been providing the services since 1994.

ABOUT Dynamic Synergies Group, Inc.

Founded in 1992, Dynamic Synergies Group, Inc. (“DynSyn”) provides **Business, Management and Technology Consulting & Outsourcing Services** that help our clients achieve outstanding results.
